+ Renovation features

Expanded commercial area!

After the walk-through duty-free shop, which is larger than any international airport in Japan, you will reach the four "Mood" areas around the central plaza area. The shops and restaurants are arranged in line with each "Mood," and customers can choose the area you go next according to your mood. In addition, the mmigration, which was previously located in north and south, will be consolidated into the central area.

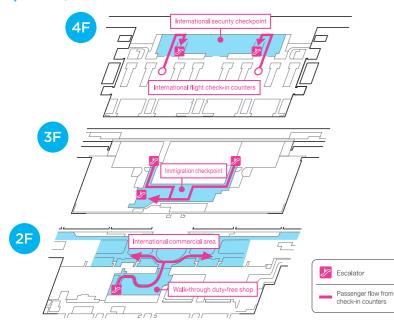

Renovation schedule

Future plan

Kansai International Airport is currently under renovation toward the grand opening in spring 2025 as well as the addition of new north and south shopping and dining facilities in the new international departure area in fall 2026. The renovation aims to increase capacity by expanding the security checkpoint area and renovating the lounge. Please enjoy Kansai International Airport as it continues to evolve as a
