

Information about Access to Kansai International Airport (as of September 19)

Due to the damage from Typhoon Jebi, private cars are currently not allowed to cross the access bridge. Therefore, you are kindly requested to use public transport other than train. Listed below is how to get to the airport.

1) Getting directly to Kansai International Airport without transfers

A. Railway

West Japan Railway Company (JR West) and Nankai Electric Railway Corporation will resume the railway services connecting Rinku Town Station to Kansai International Airport (KIX) on Tuesday, September 18.

Please kindly be advised and check the latest information, if you are planning to arrive at KIX on and after Tuesday, September 18.

C. Kobe-Kansai Airport Bay Shuttle

For details, visit the following website.

OM Kobe's official website

<https://www.kobe-access.jp/eng/time.php>

Vehicles allowed to cross the access bridge

- Limousine buses and special shuttle buses
- Cargo and delivery vehicles (**They are requested not to come to the airport** between 6:00 and 9:00 to help ease traffic.)
- Construction vehicles
- Vehicles for physically disabled people
- Taxis and other vehicles used by people who find it very difficult to use public transport, such as train and bus
- Vehicles for airport operations (vehicles with an identification issued by Kansai Airports)

Please note that private cars and rented cars are not allowed to cross the access bridge.
